Dear Ms. Dees:

On behalf of Tenax Finishing Products Co. (Tenax), we provide the enclosed Discharge Monitoring Report (DMR) for the above-referenced facility. Please note that there has been no discharge to the sewer connection from the on-site ground water remediation system since it was placed offline on 11 November 2008. The remediation system is expected to remain offline with no discharge system until March 2009. As noted in our 10 December 2008 correspondence, we will suspend effluent characteristic sampling until discharge resumes.

Please call if you have any questions regarding the above. We appreciate your continued assistance on the project.

Sincerely yours,

HALEY & ALDRICH, INC.
